1. Description and Purpose of Change

The black ESD trays currently used have caused color transfer onto some module antennas. As a temporary measure, paper was placed between modules and trays. To prevent future occurrences, the trays will be switched to transparent ESD-safe material with equivalent ESD protection.

2. Type of Change

- Change in FIT
- Change in FORM
- Change in FUNCTION
- Change of quality or reliability
- Product End of life notification
- Changes of test specification limits
- Change of supplier in supply chain to manufacture the product
- Changes of specification limits of manufacturing processes
- Production from new or modified tools
- Change of the process recipe
- New source of raw material from new or existing supplier
- Change in test/inspection method - new technique (no effect on acceptance criteria)
- Production from tooling and equipment transferred to a different plant site or from an additional plant site
- Change in Packing/shipping

3. Risk Assessment and Planning

Scheduled change date: approx. Q4/2026 (as soon as current stock exhausts)
 Current product available until: - Qty: -
 Traceability / Labeling: -
 Risk assessment: -
 Product qualification necessary? No
 Sample availability: -

4. Change Category

- Customer approval requested
- Notification to customer

5. Approval

RFbeam Approval Léon Audergon

Your approval is kindly requested by signing the documents and returning it to RFbeam within 10 days. Lack of acknowledgment of the PCN within 30 days constitutes acceptance of this change
